DEAR FRIENDS AND FELLOW LIONS,

It is my privilege to be in my second year serving as the President of the Board of Directors of Dakota Lions Sight and Health. The past year has been exciting, the future holds much promise, and I’m excited to serve with all of you. I feel especially lucky to be serving on the Board during this organization’s 25th anniversary of changing lives by restoring sight & health.

I am delighted to share with you this annual report that highlights just some of the accomplishments of the past year, the sound financial condition of the organization, recognizes our contributors, and pays some small measure of tribute to those eye and tissue donors whose gifts changed so many lives.

This is the first full year of operations under the name Dakota Lions Sight and Health, with representation of Lions districts in both South and North Dakota. We are fortunate to help facilitate the gift of donation in a much larger geographic area and to serve many more people. The only reason an endeavor like this can exist, grow, and thrive is because of the hard work of so many great people who did the groundwork, set the foundation, and created an outstanding organization. We continue to grow and strive for excellence, but we’re still your “Lions Eye Bank” and will always be proud of that heritage.

We had a phenomenal year with nearly 1,000 corneas transplanted because of the efforts of our staff and the support of Lions around the region. In addition, the level of tissue donation last year was beyond our expectations, and through those gifts innumerable lives have been changed.

We continue to strengthen and expand our relationships with hospitals and we are creating new partnerships with healthcare systems throughout the region that will allow us to carry out our Mission even better. Our accreditations and inspection results from regulatory agencies like the Food and Drug Administration, the Eye Bank Association of America, and the American Association of Tissue Banks show the outstanding quality and effort of our incredible staff.

We continue to provide the highest support for eye and tissue donors and their families. I have always felt that the biggest privilege of serving on this board is attending donor recognition events. When you hear the stories about the donors from their families, and when you hear recipients talk about how their lives have been changed by the gifts they have received, you really realize just how impactful and important this Mission really is.

I’d be remiss not to tell you how impressed I am by our staff, every single day. They are an amazing group of people, dedicated to our Mission of Helping to Enable the Restoration of the Gifts of Sight and Health.

Colin Keeler
President of the Board of Directors
This year marks my 5th year with Dakota Lions Sight & Health. Throughout this time, both our organization and the eye and tissue banking community have seen tremendous change. In just one year, the number of eye banks in the United States has dropped from 80 to 70. Despite that trend, I am proud to report that our organization is stronger than it has ever been. This year, we are celebrating 25 years in business and we have developed strategic plans to ensure a strong future for many years to come.

This annual report will highlight some of the ways our organization has honored donor families, celebrated with tissue recipients, and has worked tirelessly to ensure we fulfill our Mission each and every day.

In 2017, we expect to help restore sight to nearly 1,200 people throughout our region, our nation, and throughout the world. Nearly 40,000 lives will be saved and enhanced through tissue transplantation. Many people and organizations are part of our amazing work. I thank the Lions of South and North Dakota for the tenacity and foresight to ensure eye and tissue donation is possible through our unified region. I thank our amazing staff as they continue to reach new goals and take active roles in the eye and tissue banking community. And most importantly, I thank and honor our donors and their families as they have made the most precious gifts that make our work possible.
Celebrating 25 Years!

All journeys are defined by the moments in time, milestones, and challenges that make us who we are. This year Dakota Lions Sight & Heath celebrates a significant milestone in our journey as we mark 25 years of helping to enable the restoration of the gifts of sight and health.

It is hard to believe that the organization that exists today began with just a handful of individual Lions Clubs members that had a vision of sponsoring a “Lions Eye Bank.” Prior to its creation, ophthalmologists like Dr. Thomas White of Sioux Falls, SD and Dr. Paul Wright of Rapid City, SD identified and recovered corneas specifically for their own patients. Lions in both South Dakota and North Dakota had a dream inspired by the Lions Clubs International Foundation and the work of Helen Keller to create centralized eye banks to meet an even greater demand for corneal tissue nationally and internationally. That vision led to the establishment of the South Dakota Lions Eye Bank that officially opened on February 14, 1991. The first base of operations was in a small lab located in the lower level of Sioux Valley Hospital (later renamed Sanford Health) and later moved into a house-turned-office across the street. At this time, a satellite facility was established in Rapid City, SD. As the organization developed and grew, a new building was constructed specifically for the organization. This building, opened in August 2010 in Sioux Falls, currently serves as the organization’s corporate headquarters. In 2014, another satellite facility opened in Bismarck, ND and in 2015 the South Dakota Lions Eye & Tissue Bank and the Lions Eye Bank of North Dakota, affiliated to form a unified organization known as Dakota Lions Sight & Health.

Today, DLSH is a nationally recognized and accredited eye bank, providing nearly 1000 corneas for transplant per year with satellite offices located in Rapid City, Bismarck, and Fargo. DLSH is proud to continue this incredible momentum marked by increased number of eye and tissue donations, transplants, as well as new hospital and recovery partnerships. The vision for the future of the next 25 years is bright.

As we grow together, we are dedicated to fulfilling our Mission by helping those affected to overcome corneal blindness and to heal disabling injuries. Our task is not always easy, each day our dedicated staff work diligently to improve quality and build relationships that support donation. We strive to honor and help donor families, donors, recipients, and our donation partners. From the moment a call is received, an enormous amount of coordination with the donor family, healthcare providers, coroners, funeral homes, and other recovery agencies begins. This work requires incredible dedication, compassion, and attention to detail. Ultimately, this is just the beginning as it takes the skillful hand of a surgeon to complete the surgery that restores sight, eases pain, restores mobility, and in some cases, saves a life. Of course, none of this is possible without the incredible and selfless gift of donation.

Throughout 2017, we will be taking a look back to where we started, our achievements, and our plans for the future. We intend to see 1,200 corneas transplanted in FYE 2017. This represents 1,200 individuals who will be able to experience clear sight once again. Thousands more will be impacted by the gifts of tissue and research donation. We are devoted to continuing our important mission and creating a culture that values relationships, donor families, and donors. We strive to be on the leading edge of innovation and hope to expand our new facilities in North Dakota to provide additional corneal processing. We are proud to be the only eye and tissue bank based in both South and North Dakota.

Here is to another great 25 years!
Honoring Our Donor Families

Restoring the gifts of sight and health would not be possible without the generosity and support of donor families. It is our commitment to ensure that every donor family has the information and support they need as they undergo the grieving process. One way DLSH honors Donors, Donor Families, and Recipients is through our Donor Tribute Events. The event is held to pay tribute to those we have lost and to recognize the generous gifts of sight and health. Just like each donor family is different, each event is different. This year, DLSH expanded the Donor Tribute Event to Bismarck, North Dakota. The Bismarck event joined those that were held in Sioux Falls and Rapid City.

In 2017, a fourth event will be held in Fargo, ND. The goal is to share with other donor families stories of hope, inspiration, and comfort. During the event, several individuals publically share their stories. These include stories from donor families, transplant recipients, and the surgeons who utilize the gifts to transform lives and restore sight and health. We present each donor family with a colored rose in honor of their loved one, and celebrate the lives that made the most precious gifts. Our work would not be possible without the incredible individuals who inspire us each day with their generosity and love.

What does it mean to Check the Box?

By checking the box on your driver's license application, you are legally stating that it is your wish to become a donor following your death. Al Berdahl has firsthand experience of the importance of donation. Al is not only a recipient of donated bone tissue, but also a recipient of two corneas (one in each eye).

Al is the Community Outreach Coordinator for Dakota Lions Sight & Health. In 2013, Al was tasked with developing a community outreach program that would target and provide education to potential drivers through the various Driver's Education programs throughout the region. This program provides information about donation and the life-saving outcomes that result from someone being a donor. The goal of the program is to equip students with information they need so that they can return home and have the conversation with their families regarding donation. “The most important thing to know about being a donor is to talk to your family. We hope this program helps to facilitate those discussions” said Berdahl.

Since January 1st of 2016, Al has provided this education to 2065 new drivers throughout the region. Recently, while visiting Roosevelt High School in Sioux Falls, SD a student stopped Al in the hall – he had heard Al’s presentation the previous year. The student quickly produced his driver’s license and on it in bold letters it read DONOR.

You also have the ability to save and enhance lives by simply checking the donor box and talking to your family. To register visit www.dakotasight.org/register

FINANCIAL ACCOMPLISHMENTS

- $40,000 set aside for major repairs (HVAC, roof, etc)
- Great efforts continue to be made on keeping accounts receivable current
- Capital Campaign pledges of $1.1 million have been completed
- Accounts Payable has remained current all year
- Administration expenses continue to be at an excellent rate (16% of total expenses)
- Continued investment in quality and maintaining accreditations with AATB & EBAA
- Continued investment in benefits and wages for our staff
- Continued investment in equipment and vehicles to ensure quality and safety
- 21% increase in operational revenue compared to prior fiscal year
By The Numbers
A VISUAL LOOK AT OUR GROWTH AND THE IMPACT OF EYE & TISSUE DONATION

A Local Focus With A Global Impact

Corneas and Non-Ocular Tissues Recovered by DLSH were Transplanted in over 30 Countries

Nearly 50% of ocular tissue is transplanted locally

The Power of One
One eye and tissue donor has the potential to help over 400 people

Diversified Sources of Funding

Welcome
Dr. Greenwood

DAKOTA LIONS SIGHT & HEALTH WELCOMES
MICHAEL GREENWOOD, MD AS OUR NEWEST
ASSOCIATE MEDICAL DIRECTOR FOR OCULAR
TISSUE

Dr. Greenwood was born and raised in Jamestown, ND. He attended the University of North Dakota where he was also an ESPN Academic All-American while participating on the football team. He then attended the University of North Dakota School of Medicine and Health Sciences to receive his Doctor of Medicine. He did his ophthalmology training at Case Western Reserve University/University Hospitals in Cleveland, OH where he was Administrative Chief Resident. In July 2015, he joined Vance Thompson Vision to continue his career with a one-year advanced anterior segment fellowship with Dr. Thompson, Dr. Tendler and Dr. Berdahl.

In his free time, Dr. Greenwood enjoys spending time with his wife Heidi, playing ice hockey, golfing, running, listening to and watching live music, and reading.

Dr. Greenwood is a member of AAO, ASCRS, and ISRS. He has had multiple articles published in scientific journals.

Dr. Greenwood joins the Medical Advisory Committee of Dakota Lions Sight & Health as an Associate Medical Director for Ocular Tissue. We appreciate Dr. Greenwood’s willingness to serve and advise DLSH.

Our Mission, Vision, & Values

OUR MISSION
To Help Enable the Restoration of the Gifts of Sight and Health

OUR VISION
To be a recognized, trusted, and compassionate eye bank and tissue recovery organization in our region, ensuring sufficient, safe, and quality tissue products.

OUR VALUES
Commitment
Quality
Stewardship
Innovation
Communication

Dakota Lions Sight & Health is a non-profit organization that is supported by the generous financial contributions of our community. If you would like to help us in our Mission, please consider making a contribution or monthly pledge at our website:
